

Expolingua Berlin 2019: the must-attend International Fair for Languages and Culture

International House Malta will be attending one of the most important events in the field of learning and teaching foreign languages, international travel and global cultures, addressed to students, teachers, parents, professional and executives, translators and interpreters.

Expolingua Berlin offers a variety of workshops designed to inform all those attending about local and online language courses, internships and working abroad, as well as general information about travelling and different cultures.

IH Malta was founded in 2001 on the beautiful island of Gozo. In 2005 we launched our Young Learners Summer Programme at Paradise Bay in the north of Malta. Two years later, in 2007, we opened our main School in St. Julians, which operate throughout the year on a daily. We offer different types of programmes and classes to help each of our students find the type of classes, leisure and accommodation to fit their needs, interests, and lifestyle.

As a school we promote innovation and high-quality standards in language learning and teacher training by offering a vast variety of courses including General English, Intensive English, Teacher Training and our Young Adults & Young Learners Programmes. We take pride in our teachers, students, admin and academic staff, who bring a sense of community to our school, helping all of our students experience English in and outside the classroom.

IH Malta is among the select group of schools certified for "Bildungsurlaub" by the German federal state authorities. Participants are entitled to an intensive course of 30 lessons per week in 10 days' Bildungsurlaub.

As a LanguageCert Approved Test Centre, we offer the next generation of English language qualification both for Young Learners and Adults.

LanguageCert International ESOL qualifications are recognised in Germany by the Technische Hochschule Deggendorf – Campus Deggendorf und Pfarrkirchen at levels A1 to C2.

Erasmus+

All our short CPD (Continuing Professional Development) courses are eligible for Erasmus + funding.
